**To provide the highest quality education and training in Computer Science; to produce graduates with basic principles so that they are knowledgeable and to build confidence in students with innovative capabilities in the fast changing field of Computer Science and Engineering.**

## About the DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

The Department of Computer Science and Engineering was established in 1999 with an intake of 60 for Under Graduate Program and enhanced to 90 in 2000, 120 in 2002 and from 2013 the intake is 180. In 2010, with an intake of 18, Post Graduate program was started in Computer Networks and Information Security up to 2017 and since 2018 to date it runs a PG Program in Software Engineering. The UG course was accredited by National Board of Accreditation in 2009, 2014 and 2018 and by NAAC for 5 years in 2018.

The Department of CSE is expertly headed by Dr. C. R. K. Reddy, an eminent and dynamic academician who has an extensive experience of 25 years with 6 years of proven Industrial experience from Indian Airforce. The department has competent and hardworking faculty with 37 in number (6 Doctorates, 1 Associate Professor and 31 Assistant Professors associated with the additional support of non-teaching and technical staff).

To the credit, the department received a grants of Rs 8.4 Lakhs for 2 Years (2019-2021) by Dr. C. R. K Reddy for Prerana Scheme to provide GATE coaching to the weaker section students from AICTE and Dr. M. Sreevani received a total grants of Rs 8 Lakhs for carrying out Consultancy Project work on Factory Floor Automation and Open Brain Computer Interface (BCI) Project from OREMI Singapore.

The department has more than 300 research publications in various National and International Journals and Conferences. The Faculty attends workshops in various reputed institutions to get their knowledge updated towards research. The department highly encourages Industry Institute Interaction to bridge the gap between Industry and the Institute by fulfilling their expectations in conduction of various workshops for students on latest emerging trends and technologies, which makes the students to explore and undertake challenging tasks confidently. Along with regular teaching learning process the department also conducts Guest Lectures, Quizzes, Group Discussions, Value Added Courses & Refresher Courses to develop the skills among the students and teaching community.

The department consists of 10 fully equipped and furnished computer labs which facilitates the students to have their active participation and concentration. The department always aims at the collaboration with Industry by signing MoUs with reputed Organizations to explore, build, develop and enhance technical skills in trending technologies among faculty and students.

Above 95% students of CSE Department are placed through campus recruitments in top most software companies like TCS, L&T Infotech, Cognizant, NIIT Technologies, Wipro, JP Morgan, Sonata, Creators Technologies, Volante Software Pvt Ltd, Shrestha Analytics, Deloitte, TA Digitals, Byju's, Tech Mahindra, Persistent Systems and other reputed organizations.

The department has CSI Institutional Membership with more than 120 students & faculty as members. The MGIT CSI Student Chapter make the students play their role technically strong and competent. The Department has conducted 24-Hr Hackathon, various technical events and workshops in current technologies for the enhancement of student knowledge.

# PROGRAMME OUTCOMES

**Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization for the solution of complex engineering problems.

**Problem analysis:** Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

**Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, and cultural, societal, and environmental considerations.

**Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

**Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools, including prediction and modelling to complex engineering activities, with an understanding of the limitations.

**The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

---

---

# PROGRAMME OUTCOMES

**Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

**Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

**Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

**Communication:** Communicate effectively on complex engineering activities with the engineering community and with the society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

**Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

**Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

---

## PROGRAMME EDUCATIONAL OBJECTIVES

**PEO1:** The Graduates are employable as software professionals in reputed industries

**PEO2:** The Graduates analyze problems by applying the principles of computer science, mathematics and scientific investigations to design and implement industry accepted solutions using latest technologies

**PEO3:** The Graduates work productively in supportive and leadership roles on multidisciplinary teams with effective communication and team work skills with high regard to legal and ethical responsibilities.

**PEO4:** The Graduates embrace lifelong learning to meet ever changing developments in computer science and engineering

## PROGRAM SPECIFIC OUTCOMES

**PSO1:** The ability to apply standard principles, practices and strategies for software development

**PSO2:** The ability to comprehend, evaluate and build up software solutions

**PSO3:** The ability to become Employee or become an Entrepreneur with Life Long Learning skills in the domain of Computer Science.

## MESSAGE FROM THE HEAD OF THE DEPARTMENT

The Mahatma Gandhi Institute of Technology is one of the leading engineering colleges, helping students to reshape their future to become a valuable asset for the nation. We are committed to academic excellence in the fields of Computer Science and Engineering, leading to develop students through academia and industry linkages.

Computer Science is an exciting, fast-moving, and diverse field at developing new scientific methods and applications to automate complex tasks. It is the application of engineering to analyze, design and built software solutions to solve the societal problems. It offers lucrative career and an opportunity to build a better world.

The department is tailoring UG and PG programs for the enthusiasts who are interested in preparing themselves for a successful career in Artificial Intelligence, Machine learning and Data Science. As we all know AI and Machine Learning is an area that has gained much attention recently, not only within the research community, but also in our daily lives. For example think about self-driving cars, AI-driven medical diagnostics and personal health, face identification, or natural language understanding etc. Another budding area of research is Data Science where we use computational tools to gather data, filter them, separate noise from useful information, and create knowledge, from which we can make better decisions and build smarter, enabling tools for our daily lives and to support our professional endeavors.

The department nurtures holistic development of a student and we love to share our passion with them on how to use computational tools. We also teach the students to work in teams, share ideas, present, improve communication skills and join creative teams that make a positive difference. Our college has attracted the best and brightest students. Our innovative curriculum, state of the art labs, and research opportunities are designed to solve today's most pressing problems.

On behalf of my department and administration, I am pleased to welcome the students to join in Computer Science and Engineering and its various streams to become an ambassador in the field of computers.

## MESSAGE FROM THE EDITOR-IN-CHIEF

Dear readers,

This edition of the house journal brings to you extensive coverage of all the important happenings in the department, besides all the other regular activities and achievements in its columns. The Department is committed to providing its students with best-in-class education that combines rigorous academic study and the excitement of discovery with a blend of intellectual stimulation.

Glimpses of all the events for the academic year 2019-2020 are covered in this issue. Highlights include coverage of the staff and faculty in activities like Faculty Development Programs, Workshops, Guest lecturers. Hackathons, Ideathons, etc. and also the active participation of students in activities related to other than Academics like innovation activities which encourage the student to explore opportunities and understand entrepreneurial skills including Alumni entrepreneur interactions.

CSE Hues invites its readers to contribute valuable suggestions and regular feedback for constantly improving the quality. The Editorial board thanks all the contributors and reviewers for providing all related data in publication of this House Newsletter.

MESSAGE FROM THE

*Student Editorial Board*Designer  
Co-Editor

Co-Editor

It is an immense pleasure for us to work as a part of the editorial team. While editing and designing this newsletter, we got reacquainted to our commendable department of COMPUTER SCIENCE AND ENGINEERING. This journey has shown us how fortunate are we to be a student in the CSE department.

The newsletter provides a perfect platform to highlight the pivotal caliber of the CSE family. The stalwart bond between the students and faculty propel the department to excel. This issue also covers the technical events and workshops conducted by the department to help the students and the faculty to ascertain the emerging technologies. It also showcases the achievement of students and staff.

Finally, we suggest you to flip the pages of newsletter and feel the essence of our togetherness and achievement.

# QUBIT-2K19

QUBIT is a National level Technical Symposium which is held by the DEPARTMENT OF CSE every year. It is a magnificent blend of technical and non-technical events.

QUBIT-2K19 was held on 14th March 2019. The technical events encompassed Paper Presentation, Blind Coding, Project Expo, Code Edit and TechZite. The non-technical events included Treasure Hunt, Neon Cricket, Logo Quiz, My Yaari and Mystify.

The faculty and student-organizers toiled with passion to organize these events. They were successful in making impeccable arrangements for the symposium.

The colloquium provided a prospect for the young minds to acquire wisdom from proficient experts and manifest their prowess. It was recognized by the department that the students actively participated in all the events and procured awards on their triumph.

## Technical Events:

1. Paper Presentation
2. Project Expo
3. Info Quest
4. Da-vinci Code
5. Kaun Banega 'C' Star
6. QuizBuzz
7. Blind Coding
8. Tech Hack
9. Pattern's with 'C'
10. Game Tech
11. Coding Challenges

## Non Technical Events:

1. MIND-FIZZ
2. MAZE Amazing
3. Crack the twist
4. Spark-Wit
5. Funstruck
6. Psychometric Assessment
7. Battle Ground
8. Picture Hunt
9. AD MAD Show
10. Game House 2.0
11. Treasure Hunt
12. DP Contest
13. Meme Mania
14. Game Zone
15. Photography Contest
