ABOUT THE DEPARTMENT

The IT department at MGIT does not need any lucky stars to thank , since we have stars among us who are always willing to go that extra mile. When excellence is the permanent goal, obstacles appear as temporary. That is the spirit with which our departmental teachers, students and research scholars work in order to retain the prestigious position it holds in this field of engineering.

Computer Science Engineering is a department that is packed with scholars who are ready to take the art of programming to the next level. With a total of 22 doctoral scholars at different stages of their research endeavour, the intellectual ambience in this department is conducive to the overall development of students and the discipline of computer engineering as a whole.
