<p>Preamble : The workshop covers Lecture, Spiritual engineering exhibitions, Quiz programs, Value based games, Yoga & Meditation, Drug De-addiction awareness, Cognitive test demo, Local visit to retreat centre, etc.</p> <p>Motivation : Nowadays, youngsters are very well versed in technological aspects and they are possessing excellent intellectual skills through which they are being placed in MNC organizations with hefty packages. But, most of them are compromising on the aspects of human values, especially when facing challenging situations. They are adopting shortcuts/easy methods to overcome the situations. This tendency is making them mentally weak which is ultimately leading them to depression and getting addicted to drugs/alcohol. To overcome this situation, awareness workshops/camps/exhibitions need to be conducted regularly so that they get motivated towards adopting a positive lifestyle. In this workshop, participants shall be taught about how to overcome negative emotions through talks, exhibitions, de-addiction programs etc. It is for anyone who is willing to put dogma aside and just take a look at the facts at face value. All it takes is a shift in perspective and an open mind. With a shift in perspective, it can open up a whole new approach and concept of what values stands for. An approach that is not limited by beliefs and assumptions.</p> <p>Themes: ➤ Insights into the world of Spiritual Engineering ➤ Shaping students towards establishing a glorious Bharat ➤ Innovative ideas towards protecting environment</p> <p>Targeted audience: College students, Faculty, Industry personnel and Software employees with less than two years of work experience.</p> <p>Registration details: (Registration fee includes a kit, lunch, snacks & Tea.
