THE HOUSE JOURNAL COMMITTEE, CSE DEPARTMENT

VISION

To evolve as a Center of Excellence in the field of Computer Science and to train the students in becoming well equipped computing professionals to serve the needs of Industry and Society.

MISSION

To provide quality education and training in the field of Computer Science and Engineering along with societal and ethical values, to serve the Nation with élan.

ABOUT THE DEPARTMENT

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

The Department of Computer Science & Engineering was established in 1999 with an intake of 60 for Under Graduate Program and enhanced to 90 in 2000, 120 in 2002, 180 in 2013 and 300 in 2024. In 2010, with an intake of 18, Post Graduate program was started in Computer Networks and Information Security up to 2017 and since 2018 to date it runs a PG Program in Software Engineering. The UG course was accredited by National Board of Accreditation in 2009, 2014 and 2017, 2020 and 2021 and accredited by NAAC with an 'A++' grade in 2023.

The Department of CSE is expertly headed by Dr. C. R. K. Reddy, an eminent and dynamic academician who has an extensive experience of 27 years with 6 years of proven Industrial experience from Indian Airforce. The department has competent and hardworking faculty with in number (2 Professors, 2 Associate Professor and 32 Assistant Professors associated with the additional support of non-teaching and technical staff).

ABOUT THE DEPARTMENT

The department has more than 400 research publications in various National and International Journals and Conferences. The Faculty attends workshops in various reputed Institutions to get their knowledge updated towards research. The department highly encourages Industry Institute Interaction to bridge the gap between Industry and the Institute by fulfilling their expectations in conduction of various workshops for students on latest emerging trends and technologies, which makes the students to explore and undertake challenging tasks confidently. Along with regular teaching learning process the department also conducts Guest Lectures, Workshops, Hackathons and Value Added Courses to develop the skills among the students and teaching community.

PROGRAMME OUTCOMES

Engineering Knowledge:

Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization for the solution of complex engineering problems.

Problem analysis:

Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

Design/development of solutions:

Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, and cultural, societal, and environmental consideration.

Conduct investigations of complex problems:

Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

Modern tool usage:

Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools, including prediction and modelling to complex engineering activities, with an understanding of the limitations.

The engineer and society:

Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

Environment and sustainability:

Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

Ethics:

Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

Individual and team work:

Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

Communication:

Communicate effectively on complex engineering activities with the engineering community and with the society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

Project management and finance:

Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

Life-long learning:

Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

PROGRAMME EDUCATIONAL OBJECTIVES

PEO 1 :

Computer Science and Engineering graduate should acquire strong fundamental knowledge and skill upgradation according to the technological know-how.

PEO 2 :

Graduates are able to work effectively as an individual and in teams, for a better project management and finance.

PEO 3 :

Graduates have a professional attitude and ethical values, in designing and developing a product that will be useful to society.

PROGRAMME SPECIFIC OUTCOMES (PSO'S)

PSO 1 :

Graduates will be able to apply principles of computer science and engineering to design, develop and implement software solutions to solve real world problems.

PSO 2 :

Ability to apply the knowledge of emerging technologies of computer science to societal needs.

MESSAGE FROM HEAD OF THE DEPARTMENT

Dr CRK REDDY, HoD CSE

Mahatma Gandhi Institute of Technology is one of the leading engineering colleges, helping students to reshape their future to become a valuable asset for the nation. We are committed to academic excellence in the fields of Computer Science and Engineering, leading to develop students through academia and industry linkages.

Computer Science is an exciting, fast-moving, and diverse field developing new scientific methods and applications to automate complex tasks. It is the application of engineering to analyze, design and build software solutions to solve the societal problems. It offers lucrative career and an opportunity to build a better world.

MESSAGE FROM HEAD OF THE DEPARTMENT

The department is tailoring UG and PG programs for the enthusiasts who are interested in preparing themselves for a successful career in Artificial Intelligence, Machine learning and Data Science. As we all know AI and Machine Learning is an area that has gained much attention recently, not only within the research community, but also in our daily lives. For example think about self-driving cars, AI-driven medical diagnostics and personal health, face identification, or natural language understanding etc. Another budding area of research is Data Science where we use computational tools to gather data, filter them, separate noise from useful information, and create knowledge, from which we can make better decisions and build smarter, enabling tools for our daily lives and to support our professional endeavors.

On behalf of my department and administration, I am pleased to welcome the students to join in Computer Science and Engineering and its various streams to become an ambassador in the field of computers.

The department nurtures holistic development of a student and we love to share our passion with them on how to use computational tools. We also teach the students to work in teams, share ideas, present, improve communication skills and join creative teams that make a positive difference. Our college has attracted the best and brightest students. Our innovative curriculum, state of the art labs, and research opportunities are designed to solve today's most pressing problems.

-THANK YOU

MESSAGE FROM EDITOR IN CHIEF

Dear Readers,

This edition of our House Journal provides an in-depth overview of the department's key events and achievements, along with regular updates on ongoing activities. The Department remains committed to delivering an exceptional educational experience, blending rigorous academic training with the excitement of discovery and intellectual development.

In this issue, we highlight the major events of the 2023-2024 academic year, including Faculty Development Programs, workshops, guest lectures, Online certifications(CISCO & TASK) and hackathons.

Additionally, we feature the active involvement of our students in extracurricular pursuits, with a focus on innovation initiatives that promote entrepreneurial skills and foster valuable interactions with alumni entrepreneurs. CSE Hues welcomes contributions, suggestions, and feedback from our readers to continuously enhance the quality of our publication. The Editorial Board extends its sincere appreciation to all contributors and reviewers who provided valuable content for this edition.

Thank you for your ongoing support and engagement.

G. Naga Sujini, Editor-in-Chief, Assistant Professor, Dept. of CSE, MGIT.

MESSAGE FROM STUDENT EDITORIAL BOARD

Dear Readers,

It is with great excitement that we present to you the latest edition of CSE HUES, our department's very own newsletter. Bringing this publication to life has been a journey of dedication, creativity, and teamwork. We hope you find as much joy in reading it as we did in curating it.

This edition highlights the vibrant and dynamic spirit of our Computer Science community, showcasing not only our technical endeavours but also the artistic and innovative sides of our students. From insightful seminars and impactful publications to noteworthy achievements and engaging events, this issue captures the essence of our department's journey.

CSE HUES is more than just a newsletter, it is a platform that reflects the diverse academic and extracurricular pursuits of our students. We aim to make it a true representation of our collective experiences and aspirations. We warmly welcome your feedback and suggestions as we continue to evolve and grow.

Here's to another year of inspiration, exploration, and excellence!

The Student Editorial Board.

FACULTY ACHIEVEMENTS

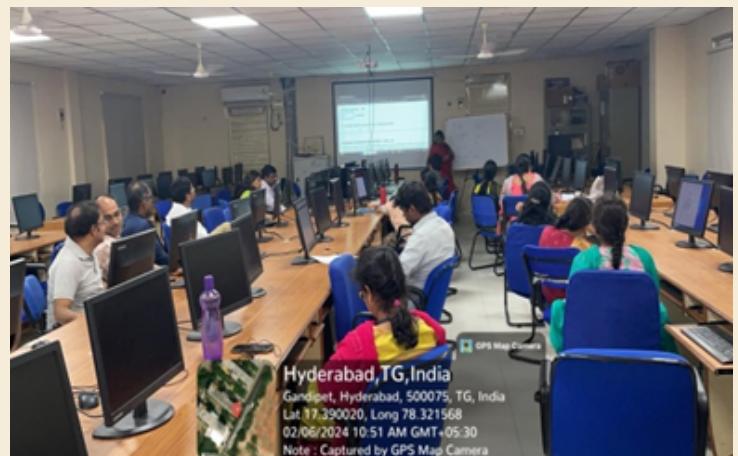

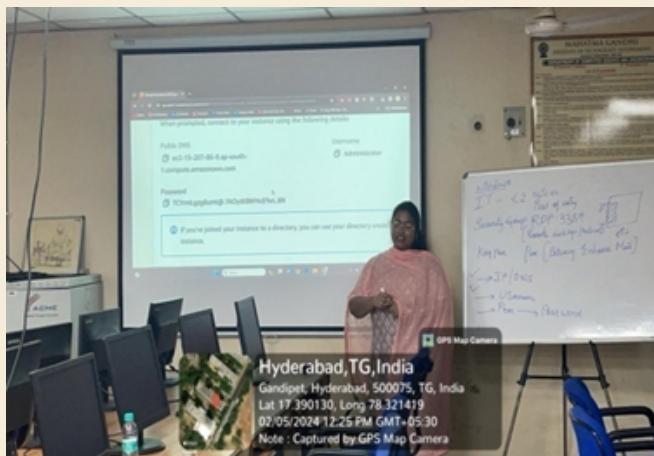

1. Dr A Ratna Raju has been awarded Ph.D. from JNTU Hyderabad for his contribution in the field of Medical image processing - "Brain Tumor classification through Hybrid and Semantic Segmentation using CAR-UNET Architecture" in March 2024.
2. Dr. K. Srikala was honoured for Excellence in Research at the TAPA & Women's Day event on 10th March 2024.
3. Dr P Shyam Sunder has been awarded Ph.D from Osmania University Hyderabad for his contribution in the field of Cloud Computing - "Efficient Task Scheduling in cloud computing Environment using Metaheuristic Algorithms" in January 2024.

Faculty Development Programs

1. The Department of Computer Science and Engineering conducted a Three-day National Level Workshop on “Big Data Analytics” from 20th June to 22nd June 2024. The workshop was attended by 80 participants, including faculty from the CSE, IT, ET, and ECE departments of MGIT.

2. The Department of Computer Science and Engineering has conducted one week Faculty Development Program on "DevOps and Its Applications" from 5th February to 10th February 2024 (6-Days). The Participants are Faculty of CSE, IT, ET and ECE departments from MGIT College. Total of 60 staff attended the workshop.

Cisco

- A total of 30 Students were registered for the "Introduction to Networks" course, scheduled from 22-11-2023 to 22-2-2024, in the academic year 2023-2024.
- A total of 30 Students were registered for the "Switching, Routing and Wireless Essentials" course, scheduled from 25-3-2024 to 31-7-2024, in the academic year 2023-2024.
- A total of 30 Students were registered for the "Enterprise Networking, Security, and Automation" course, scheduled from 26-4-2024 to 31-7-2024, in the academic year 2023-2024.
- A total of 30 Students were registered for the "Cyber security Essentials" course, scheduled from 18-5-2023 to 31-7-2023, in the academic year 2023-2024.
- A total of 30 Students were registered for the "Programming Essentials in Python" course, scheduled from 26-4-2023 to 26-7-2023, in the academic year 2023-2024.
- A total of 70 Students were registered for the "Programming Essentials in C" course, scheduled from 27-9-2023 in the academic year 2023-2024.

- A total of 50 Students attended the "Cisco Virtual Internship with AICTE " in the academic year 2023-2024.
- A total of 10 Students participated in "CISCO-IDEATHON" in the academic year 2023-2024.

TASK

- On 03-6-2024 to 05-6-2024 TASK conducted Database Programming with SQL certification program for 3rd Year students.
- On 29-4-2024 to 01-5-2024 TASK conducted Programming Essentials in Python certification program for 3rd Year students.
- On 22-4-2024 to 2-4-2024 TASK conducted Database Programming with SQL certification program for 3rd Year students.
- On 04-03-2024 to 06-03-2024 TASK conducted Programming Essentials in Python certification program for 1st Year students.
- On 13-07-2023 15-07-2023 TASK conducted Programming Essentials in Python certification program for 1st Year students.

STUDENT PUBLICATIONS

M. Prudvi - 6305991745
G. Pavan - 9247696717
B. Ankitha - 9010818197

Department of computer Science and Engineering conducts National level Tech Fest every year with the name Qubit. In this event students from various colleges gather to showcase their technical skills and to display the working models. Students are encouraged to discuss their idea and networking opportunity provided with various stack holders like academia and Industry. We have conducted various Technical events and Non-technical events.

HackSavvy-24

National Level Hackathon, 20th-21st March 2024

"HackSavvy-24" Ideate Innovate Inspire- A 24 hours National Level Hackathon - Organized by all the Departments of MGIT. Themes- AI and ML/Cyber Security/IoT/Blockchain Technology/ Drone Technology/ Robotics/ Sustainable Infrastructure.

Students of various departments which include CSE, IT, ECE, MECH and EEE of All Over India actively participated. Over 750 students actively participated in building partial prototypes for their projects.

Projects & Winners

S.No	Prize	Team Name	Team Leader Name	Hackathon Theme	Project Title
1.	First Prize	DeBuggers	Kirtan Matalia	AI & ML	ExamEye
2.	Second Prize	Tanishq	Mohan Karthik	AI & ML	SignSpeak Real time translation
3.	Third Prize	The Spartaans	Nageshwari B	IoT	Smart Parking System
4.	Consolation	Genesis	Sirangi Sanjay	Cybersecurity & Blockchain Tech	Blockchain Based eVault for Legal Records
5.	Consolation	Techolics	Jaiker Siddharth	Robotics	Robotic waste sorting system

S.No	Prize	Team Name	Team Leader Name	Hackathon Theme	Project Title
6.	Consolation	Clover	Vardhan	AI & ML	AI-Assisted Radiology
7.	Consolation	Team Ragnarok	Ashwitha Maloth	Sustainable Infrastructure	Renewable energy integration
8.	Consolation	Dronacharya	Guna .p	Drone Technology	Early Detection & Mitigation of Structural Damages in Electric Power Plant Equipment

Internal Hackathon for SIH

The banner features logos for G20 India 2023, Ministry of Education, MoE's Innovation Cell, Smart India Hackathon 2023, and MGIT. It also includes the MGIT logo and details about the hackathon: Date: 26th & 27th September, Time: 9:00 am - 5:00 pm, and a list of coordinators.

MGIT hosted an Internal Hackathon on 26th and 27th September, 2023, as a preparatory event for the national Smart India Hackathon(SIH). The Hackathon aimed to encourage innovation and coding among students by solving real-world challenges. Many students participated in teams, with mentorship from faculty and industry experts. The top teams had the opportunity to represent MGIT at the national-level Smart India Hackathon 2023.
