

MGIT'S QUARTERLY

NEWS LETTER

MAHATMA GANDHI INSTITUTE OF TECHNOLOGY

ABOUT US

MGIT envisions, inspires and motivates its students to imbibe knowledge with which they can excel and serve the nation with great elan. To nurture students into disciplined young citizens of irreproachable character, coupled with hands – on training and to make them readily employable by fostering social, cultural and environmental consciousness.

i. Events organized

(Duration, No. of participants, Winners and Runners up details)

1. Dance club students- Beat cruisers participated in Dance Competition (Nritya) at BVRIT as a part of their Annual Day Celebrations – 2024 at B V Raju Institute of Technology (BVRIT), Narsapur, Hyderabad on 25-04-2024. MGIT are the runners in the Dance Competition (Nritya).

1. Competition held in Sreenidhi Institute of Technology (SNIST), Hyderabad on 03-05-2024 Dance club students – Beat Cruisers have participated in Nrithya - Inter College Dance

4 (I) DEPARTMENTAL ACTIVITIES

CIVIL

(i) Department achievements:

a. Workshops, Seminars, Conferences, Guest Lectures, Training programmes organized:

1. Civil Engineering Department had organised a One Day Workshop on “Recent Trends in Sustainable Technologies in Civil Engineering” for UG students on 26.06.2024, addressed by
I. Dr. B.D.V. Chandra Mohan Rao, Professor, VNRVJIET, Hyderabad.
II. Dr. V. Venkat Ramayya, Assoc. Professor, Department of Civil Engineering, MGIT.
III. Ms. B. Radha Kiranmaye, Research Scholar, BITS Hyderabad.

2. Civil Engineering Department had organised a Field Visit to "Okno Modhomes experience centre" at Janwada, Telangana on 22.06.2024 for IV SEM B.Tech & II SEM M.Tech Students.

3. Civil Engineering Department had organised Field a Visit to Water Treatment Plant, Mission Bhagiratha Grid Division, Parigi on 20.06.2024 for VI Semester B.Tech Students.

4 (I) DEPARTMENTAL ACTIVITIES

EEE

(i) Department achievements:

1. The Department has conducted a guest lecture on “Introduction to Power System Analysis using ETAP software” on 19-06-2024 by Dr.B.Koti Reddy, Scientific Officer, Heavy Water Plant , Manuguru.
2. The Department has conducted a guest lecture on “BioSensors Development” on 20-06-2024 by Dr. Shiv Govind, HoD, IIT , Hyderabad.

INDUSTRIAL VISITS:

1. THE DEPARTMENT HAS ORGANISED SITE VISIT TO "AKSHAYAPATRA FOUNDATION, KOKAPET " FORB.TECH VI SEM STUDENTS ON 15-06-2024

4 (I) DEPARTMENTAL ACTIVITIES

ECE

(i) Department achievements:

ALUMINI MEET organized on 10/05/2024

- VLSI (Very Large Scale Integration) is the process of designing and fabricating complex integrated circuits (ICs) with millions to billions of transistors.
- Found in microprocessors, memory chips, and SoCs (System-on-Chip).
- Evolution of VLSI:
 - SSI (Small Scale Integration) → MSI (Medium Scale Integration) → LSI (Large Scale Integration) → VLSI → ULSI (Ultra Large Scale Integration)
- Applications:
 - Microprocessors, AI chips, GPUs, FPGAs, Embedded Systems, IoT, Automotive, and 5G devices.

Digital Design: Logic Gates, Flip-Flops, Multiplexers, Counters, FSMs

- ◆ Analog Design: MOSFETs, Op-Amps, ADC/DAC, PLL
- ◆ Semiconductor Physics: CMOS Technology, Fabrication, Transistor Scaling
- ◆ EDA (Electronic Design Automation) Tools: Cadence, Synopsys, Mentor Graphics

ECE Dept. conducted an Alumni talk on “Circuit Chronicles: A Journey into VLSI Awareness” for undergraduate students on 10-05-2024 by B.Tejasri, Senior physical design engineer, SoCtronics technology pvt ltd.

4 (I) DEPARTMENTAL ACTIVITIES

CSE

(i) Department achievements:

1. “Big Data Analytics”, 3-days, Workshop, Dr P Ram Mohan Rao, Associate Professor, Spoorthy Engineering College Hyderabad, 80 participants from outside MGIT and Inside MGIT.

The Department of Computer Science and Engineering conducted a Three-day National Level Workshop on “Big Data Analytics” from 20th June to 22nd June 2024. The workshop was attended by 80 participants, including faculty from the CSE, IT, ET, and ECE departments of MGIT.

4 (I) DEPARTMENTAL ACTIVITIES

IT

(i) Department achievements:

a. Workshops, Seminars, Conferences, Guest Lectures, Training programmes organized: Title, duration, Nature of the event, details of the speakers, No. of participants from outside MGIT and Inside MGIT.

1. The Training Program on “Programming Essentials in Python” was conducted from April 1, 2024, to April 3, 2024, by the Department of IT in association with TASK at Mahatma Gandhi Institute of Technology. The event was a training program led by Mr. V. Rakesh and held in D-208.

The program was exclusively designed for TASK-registered students of IV Semester IT & CSB and VI Semester CSB & IT

2. The Training Program on “21st Century Transferable Skills” was conducted from May 1, 2024, to May 3, 2024, by the Department of IT in association with TASK at Mahatma Gandhi Institute of Technology. This training program was led by Rama Manoj Goud Pydipelly, Technical Trainer, and held in C-102. The program was specifically designed for TASK-registered students of IV Semester IT & CSB.

b. New Staff Details: Name of the faculty, designation, date of joining

c. Collaborative R&D activities (Joint Research Papers, Patents etc. published IEEE format): Author initials. Last name, “Article title,” Journal Name, vol. Volume, no. Number, pp. Page range, Month Year, DOI.

d. Research projects (Joint) : Title of the project, collaborating faculty details, funding agency details, amount of funding

e. Consultancy Work (Joint): Title of the work, collaborating faculty details, client organization details, amount of consultancy.

f. Tech Fests: Events organised, No of Participants etc.

Alumni activities (Placement assistance, invited talk, Extension of Technical collaboration, etc.): Alumni name, affiliation details, nature of support and date

2. The Guest Lecture on “Search Engine Optimization” was conducted on April 27, 2024, by the Department of IT at Mahatma Gandhi Institute of Technology. This guest lecture was delivered by Mr. Srujan Babu Yamasani, Software Developer at DLF (Co-Working Labs), Hyderabad. The session was specifically designed for II Semester IT students.

4 (I) DEPARTMENTAL ACTIVITIES

ET

EVENTS ORGANIZED:

1. “An industrial workshop for all the third year students of Emerging Technologies (CSM & CSD) on Artificial Intelligence and Data Science”, 22nd April to 30th April 2024, Workshop, Consensus Academy, 150 students of MGIT.

Report on Industrial Training and Certification Program with Consensus on “AI/ML” and “Data Science”

The Industrial Training and Certification Program on Artificial Intelligence (AI), Machine Learning (ML), and Data Science was successfully conducted from April 22 to April 30, 2024, at Mahatma Gandhi Institute of Technology (Autonomous). The program was specifically designed for VI Semester students of the Emerging Technologies (ET) department to enhance their technical proficiency and industry readiness.

The training sessions were led by industry experts Manu Thambi (Data Science, Consensus Academy) and Janarthannan R (AI/ML, Consensus Academy). Over the course of eight days, students gained hands-on experience with cutting-edge tools, algorithms, and real-world applications in AI and Data Science.

Highlights of the program were:

- Comprehensive theoretical sessions on AI, ML, and Data Science concepts.
- Hands-on training with industry-relevant datasets and frameworks.
- Practical implementation of machine learning models and data analysis techniques.
- Interactive discussions and Q&A sessions with trainers.

The training took place at A-207 and A-213 within the MGIT campus, providing students with an engaging learning environment. The program concluded with a certification ceremony, recognizing participants' efforts and newly acquired skills.

The initiative successfully bridged the gap between academic learning and industry practices, equipping students with essential AI and Data Science competencies

4(II) - FACULTY ACHIEVEMENTS:

Civil

- a. Dr. Sreeteja Bala Padmaja, Assistant Professor, Civil Engineering Department, has been awarded Doctor of philosophy in Civil Engineering from JNTU Hyderabad held in May 2024, for the thesis entitled "Stability Analysis of Slopes using Catastrophe Theory".
- b. Dr.T.Siva Shankar Reddy, Associate Professor, Civil Engineering Department, Published a Patent titled "Development of light weight Polystyrene Concrete with Fibers" Patent on 03.05.2024, No.20241030017.
- c. Dr.V.Venkat Ramayya, Associate Professor, Civil Engineering Department, Reviewed research article titled "Factors Influencing the Rheological Characteristics of Modified Corn Stalk Fiber Asphalt Mortar." In Jordan Journal of Civil Engineering.
- d. Dr.V.Venkat Ramayya, Associate Professor, Civil Engineering Department, Submitted Review comments for two technical papers in International journals and acceptance is awaited
 1. International Journal of Pavement Research & Technology.
 2. International Journal of Traffic and Transportation Engineering.

EEE

- Dr.P.Ram Kishore Kumar Reddy, published an article "A Novel Approach for battery Management Systems for Electric Vehicles based on CNN-BiGRU Model", in International Conference on Hybrid and Advanced Technologies-2024, QISCET in April 2024
- Dr.P.Nagasekhar Reddy, published an article "A Novel Approach for battery Management Systems for Electric Vehicles based on CNN-BiGRU Model", in International Conference on Hybrid and Advanced Technologies-2024, QISCET in April 2024
- Dr.P.Nagasekhar Reddy, published an article "Short term Electric Vehicle charging load forecasting in low-quality data environments using CNN-SM approach", in International Conference on Hybrid and Advanced Technologies-2024, QISCET in April 2024
- Mrs.N.Madhuri, published an article "Fault tolerant Shunt active power filter with synchronous reference frame control and self-tuning filter", in Measurement Sensors Journal in April 2024

4(II) - FACULTY ACHIEVEMENTS:

ECE

Patent applied on 10/05/2024 with title "Artificial intelligence and Machine learning: A Model for Enhancing Faculty Performance Reliability is the proposed invention". The proposed invention focuses on understanding how the performance and reliability of teaching faculty can be enhanced. The invention focuses on analyzing the parameters of faculty performance.

1.Ten students of ET department (CSM & CSD) visited National Informatics Centre, Hyderabad as Industrial Visit – explored their High-end Infrastructure, 15th June 2024, NIC Hyderabad.

On June 15, 2024, students from the Emerging Technologies Department had the opportunity to visit the National Informatics Centre (NIC), Hyderabad. On the visit we got to know that, NIC is a pivotal organization in developing and maintaining digital solutions for the Indian government.

During our visit, we were introduced to various ongoing projects and learned about the technologies NIC employs, such as cybersecurity, cloud computing, and big data analytics. We also saw how NIC's solutions improve the efficiency of public services, like e-governance and digital public infrastructure.

The staff at NIC provided us with detailed presentations and demonstrations, showing us how their work supports various government departments. This visit was incredibly enlightening as it provided us with a real-world understanding of how technology is used to solve practical problems and enhance public services. It also inspired us to think about how we can apply our skills in the field of technology for societal benefit. Overall, it was a highly educational experience that enriched our academic journey.
